Board President Jeanne DeKrey called the meeting to order at 9 AM Monday, May 6, 2019, at the Wheeler Wolf Law Firm, 220 N. 4th Street, Bismarck, ND 58501-4004.

Minutes: After review, it was moved by Reed Argent, seconded by Dave Relling and passed unanimously to approve the minutes of the Board’s May 14, 2018, meeting. A motion was made by Dave Relling, seconded by Reed Argent and passed unanimously to approve the minutes of the June 12th conference call. A motion was made by Dave Relling, seconded by Reed Argent and passed unanimously to approve the minutes of the June 26th conference call.

Alternate Approval Pathway: Bruce Wessman informed the board that an agreement has been signed by FSBPT and the North Dakota Board of Physical Therapy to participate in the Alternate Approval Pathway for initial licensure. This has a starting date of August 1, 2019.

Criminal Background Checks: Bruce Wessman presented board training on the policy and procedures for CHRI. Emphasis was placed on the reason for CHRI which is initial licensure. CHRI information will not be shared with anyone unless mandated by a court order. The retention of CHRI is 3 years; storage is in a locked file cabinet. Only the Executive officer and the administrative assistant will have actual physical access to CHRI. Dan Conn will receive in person training on this policy from board member Reed Argent on May 8th.

Criminal Background Checks: After discussion by the board it was moved by Reed Argent, seconded by Keith Swanson and passed unanimously that the Board will consider the criminal background checks are valid for up to 6 months to allow an applicant to complete the licensure process.

Practice act update: Bruce Wessman reported that SB 2125, the Practice Act revisions, passed unanimously and will become law on August 1, 2019.

Rules and Regulations: The board worked through proposed rule changes and has asked Jack McDonald to compile these and send out to the board for review in a timely fashion. A task force of board members and legal counsel will then meet to cross reference the rules with the practice act. Once completed Jack McDonald will implement the rule change process.

PT and ordering imaging: The PT board discussed their role in promoting PT’s ability to order imaging studies. The PT board concluded that promoting the profession was the responsibility of the
professional chapter. The following statement is now the board’s stance on imaging: “The NDBPT will not oppose legislative efforts by the NDPTA to enact a law enabling Physical Therapist to order imaging studies.”

PT and DOT Physicals: The PT board was once again asked if a PT may become certified by Federal Motor Carriers Safety Administration to perform DOT physicals. After review of the certification process and taking into account that chiropractors and mid level practitioners are allowed to become certified and given the board’s previous stance of allowing other non entry level practices when certification was obtained, The PT board voted 3-1, with Keith Swanson casting the dissenting vote, in favor of allowing a PT to become certified to perform DOT physicals. This affirmatively answers the question from FMSCA: “Does the scope of practice for a Physical Therapist to conduct the testing and physical examination of body systems required on the Medical Examination Report, determine whether the driver is physically qualified to drive a CMV in interstate commerce, and complete the Medical Examiners Certificate?”.

PT and Private Practice: The PT board has received multiple business set-up questions. Per Jack McDonald this is not the board’s responsibility. The licensee needs to work with their attorney or with the APTA’s private practice section on these issues.

Selling Dietary supplement: Bruce Wessman presented a question on PT selling dietary supplements. Per the dietary practice act this would be allowed as long as the therapist does not state they are a dietician. Per the pharmacy board there would not be any restrictions to selling legal supplements. However advertising to the public benefits of supplements without scientific support is problematic. The pharmacy board also reiterated that a PT may not recommend or counsel on medications. The PT board’s practice act does allow for disciplinary action for: “Promoting any unnecessary device, treatment intervention or service resulting in the financial gain of the practitioner or of a third party”

PT and Prescriptions for Medication: Jeanne DeKrey presented on the practice of having a standing order for use of medications used in iontophoresis or phonophoresis. Per our rules and regulations Chapter 61.5-06-02: “A valid order or prescription for medication classified as a legend drug is needed before administration to a patient.” In addition “a record of dosage form, quantity and strength of medication administered to each patient is required in the medical record” The PT board interpretation of this rule is that a standing order is not sufficient to administer legend drugs. A patient specific order is required. The PT board has directed Bruce Wessman to add this to the FAQ section of the web page.

MDS: After discussion it was moved by Reed Argent, seconded by Keith Swanson and passed unanimously to collect MDS information every other year. This information will be shared with UND for a biennial report presented by UND to the state legislature.
